The remaining participants form a circle around him. The player with the jump rope lays it out on the floor and spins in a circle. As the opposite handle of the jump rope passes the players, they must jump over it. A player who trips or is hit with the jump rope is eliminated. The final standing player is the winner and becomes the helicopter spinner.</p>
Station 10	<p>Long Rope Two people hold the ends of the rope, making sure it's flat on the ground. Shake the rope so it looks like a snake, while the kids jump over it. If your foot touches the rope, it's your turn to shake it!</p>
